## Clerical Coordinator/Telemetry Tech Nursing Staffing Office

- Years at Hoag: 5
- Studying to be a registered respiratory therapist
- Scholarship will give him a much-needed financial and self-esteem boost. It will give his family's future hope and make him proud to have started this journey
- Passionate to be part of the medical field
- First to graduate college

Dear Kingston Technology,

I am writing this letter with great gratitude because I was selected to receive the Kingston Technology–Hoag Classic Scholarship. I have worked at Hoag for 5 years now with a dream of advancing my career in the medical field. There were always financial hardships that made it difficult for me to begin school. Earlier this year, I decided to take a leap and begin my educational journey by starting school to become a respiratory therapist. This scholarship has come at a great time for me, giving me a much-needed financial and self-esteem boost. Since starting school, I have always been stressed about

accruing student loan debt, and this scholarship takes a huge burden off my back. Being awarded with this scholarship gives me a lot of hope for my family's future and makes me proud to have started this journey.

Thank you so much!

Sincerely,  
Noe Perez
